

CommPartners Expands Integration Ecosystem with ACGI Software to Provide Seamless Member Experiences

Columbia, MD – January 13, 2016. [CommPartners](#) announces a new partnership with leading Association Management System provider, [ACGI Software](#), to offer both client communities a **seamless solution for integrating [Elevate](#), CommPartners' award-winning Learning Management System, and ACGI Software's, Association Anywhere AMS**. With this integration, clients of both organizations will have a unified process for authentication, registration and reporting to optimally leverage the value of both applications.

CommPartners provides the only LMS with fully integrated and embedded webinar, livestream and multimedia software to support learning, how and when it occurs. The connection between live, peer-to-peer knowledge exchanges and traditional continuing education programs leads to improved learning outcomes, as well as increased participation with an association's education offerings.

"We've had an outstanding relationship with ACGI Software for over 15 years," shared Rich Finstein, CEO of CommPartners. "We respect their approach to customer service and the integrity and reputation they bring to our community. This new partnership leverages the best of both applications on behalf of our clients."

"ACGI truly values its longstanding relationship with CommPartners. We are embarking on this new partnership with great excitement as associations and credentialing organizations will highly benefit from the integration between ACGI's technology platform and the Elevate LMS," said Arj Devadas, VP of Sales and Marketing for ACGI Software.

CommPartners' [Elevate LMS](#) is used by leading associations such as [Society of Petroleum Engineers](#), [Americans for the Arts](#), [American Healthcare Association](#) and [American Health Lawyers Association](#). Over 1,000 associations look to CommPartners to support their education requirements.

About CommPartners:

CommPartners is a leading provider of online education and event solutions for the Association Community. At the core of the company's solutions is our Elevate Learning Suite, the ideal environment to allow organizations to engage their communities through knowledge. Elevate, the only LMS that integrates webinars, virtual conferences and eLearning options including courses, blended learning, videos, podcasts and topical discussions. The CommPartners team is diverse, and together we share a common passion: we are strategic thinkers, dedicated to the advancement of your organization's mission through exceptional online learning.

About ACGI Software:

ACGI Software develops and delivers cloud-based software for associations and credentialing organizations. The company's Association Anywhere® association management system (AMS) and Certelligence™ credentialing management system (CMS) are built on a secure, enterprise-class database platform. Highly configurable and extensible through integrations with web, mobile and back-office applications, ACGI has significant industry expertise gained from 20 years of working with some of the nation's best-known associations and credentialing organizations. Learn more about ACGI by visiting www.acgisoftware.com.
