

ELEVATE Virtual Conference Website

VIRTUAL CONFERENCE

Overview

CommPartners will develop and host your program website. It will be white labeled specifically for each individual event, or we can create a sustaining conference website for all your virtual conferences.

Features

The virtual conference website can provide a wide range of features to support the attendee experience including the following:

Registration and Payment

An attractive and simple to use shopping cart is included for conveniently processing payments.

Access to Sessions and Speakers

Attendees will be able to access session information and speakers through your Virtual Conference Website.

Discussions

Topical or session discussions can be configured to encourage peer sharing of information or exchanges between session leaders and attendees.

Resources

A conference resource library can be located in a designated area and can include audio and video files and documents. Handouts can also be included with each session.

Session Surveys

Each course, conference or session can be set up with a survey to immediately receive feedback from attendees.

Conference Updates

An update feature allows attendees to receive notifications on their mobile device for news leading up to, during or after the event.

My Conference Page or Briefcase

Course or conferences purchased will be accessible in a personalized area of the site. This includes live access as well as access to archived sessions.

Integrated Tests, Certificates and Badging

Tests, certificates and badging can be added to live or recorded content.

Polls

Polls can be inserted on any page of the site or within a session console.

And much more!

Platform Integrations

3 fully-integrated platforms for you to choose from:

MediaCenter 2.0
CommPartners

Zoom Webinar
Edition

GoToWebinar
account

Integrations Use Case

MediaCenter

- ✓ Typically used for livestreaming keynote address' from on-site locations or at the client's office
- ✓ HD output to optimize attendee experience
- ✓ Platform supports polls, chat, Q&A, social media integration and access to resources
- ✓ Mobile device compatible
- ✓ Custom design
- ✓ Single or multiple camera & slide views
- ✓ Real-time and post-event analytics
- ✓ Live closed Captioning

Zoom, GoToWebinar

- ✓ Ideal for breakout sessions or when your presenters are remote presenting via webcam
- ✓ Chat in both private and group panelist format
- ✓ Manage and Share a Q&A Dialog box
- ✓ Allows attendees to virtual "raise their hands"
- ✓ Real-time attention and engagement indicator
